GOOGLE REVIEWS

Bass Stern - Beis Brucha

"Fantastic experience with the team at Data Cable. Excellent customer service. Going way out their way to accommodate and satisfy the customer. Very impressed."

Steve Kennedy – London Underground

"Resolved an outstanding issue left by another company. Very understanding and helpful. After work had been completely finished. I received a follow up call to ensure I was happy. Great customer focused service. Well done."

Phoebe Winder– Westgrove Partners

"Very happy with the service at Data Cable Installation. The team are very quick to respond, polite and lovely to work with. We are taking a new office on the lower ground floor of our building where we had 0 bars of reception and no data, and within a few days it was up and running - full service on both signal and data no hassle!"

"Big thanks to the team, would highly recommend." :)

THANK YOU
